Γhe	e applicant Kobeh Valley Ranch LLC (c/o General Moly, Inc.)
_1	726 Cole Blvd., Suite 115 of Lakewood
C	Street Address of P.O. Box Colorado 80401 hereby make(s) application for permission to change the
	State and Zip Code
X.	Point of diversion Place of use Manner of use of a portion
1. 2.	The source of water is underground Name of stream, lake, underground, spring or other sources. The amount of water to be changed 5.00 cfs, 1280.00 acre-feet annually Second feet, acre-feet to the second foot equals 448.83 gallons per minute.
3.	The water to be used for Mining and milling integrated to be used for integration, power, mining, commercial, etc. If for stock, state number and kind of animals. Must limit to one unique use.
4.	The water heretofore used for Mining and milling H for stock, state number and bind of unimals.
5.	The water is to be diverted at the following point (Describe as being within a 40-acre subdivision of public survey and by course and distance to a found section corner. If on unsurveyed land, it should be stated.)
	Within the SE 1/4 of the NW 1/4 of Section 19 of T.22N., R.51E., M.D.M., or at a point from which the southwest corner of Section 31, T.22N., R.51E., M.D.M. bears South 07°25' West a distance of 14,570 feet. (Well 214)
6.	The existing point of diversion is located within (If point of diversion is not changed, do not enswer.)
	the SW 1/4 of the SW 1/4 of Section 21, T.22N., R.51E., M.D.M., or at a point from which the southwest corner of Section 31, T.22N., R.51E., M.D.M. bears South 43°28' West a distance of 15,620 feet. (Well 204) See map that accompanied Application No. 75979.

8.	Existing place of use (Describe by legal au removed from irrigation.)	bdivisions. If changing place of	use and/or manner of use of is	rigation permit, describe acreage to	be		
	The place of use is not changed						
9.	Proposed use will be from Janu	lary 1 to	December 31	of each year.			
10.	Existing use permitted from January		December 31				
	Description of proposed works. (Uns specifications of your diversion or st flumes or drilled well, pump and motor, etc.)	der the provision of NR	S 535.010 you may 1	e required to submit plan	ns and . pipes and		
	Drilled well, pump and pipelines	or truck to mine and	mill site.				
12.	Estimated cost of works \$3,000,0	00					
13.	Estimated time required to construct	works 3 years	If well completed, d	laceri ha mel			
14.	Estimated time required to complete	the application of water					
15. Provide a detailed description of the proposed project and its water usage (use attachments if necessary): (Failure to provide a detailed description may cause a delay in processing.)							
	See attached addendum.

ADDENDUM TO ITEM 15 - "REMARKS"

This application, when granted, is intended to be utilized in conjunction with other Applications to Change filed simultaneously herewith. The Applications to Change are similarly intended to be utilized in conjunction with Applications to Appropriate numbered 72695 through 72698, 73545 through 73552 and 74587, previously filed with the State Engineer.

Water in the maximum annual volume of 16,000 acre feet annually will be utilized for mining, milling and domestic purposes within the place of use. The mining and milling operations will operate 24 hours per day, 365 days per year. The life of the mine is anticipated to be 53 years. When the plant is fully operational, water consumed in the initial stages will be substantially les that 16,000 acre feet annually, increasing to approximately 16,000 acre feet annually for a period commencing in the year 2020 and ending in 2052. Thereafter, the volume of water will gradually decline until the ore body is exhausted and the mining property is reclaimed.

The liquid cycle is fully contained, under NDEP zero discharge permits. Water saving and conservation devices will be fully implemented.
